

## सेवा प्रशिक्षण कैलेंडर 2019-20 SERVICE TRAINING CALENDAR 2019-20

### सरहद पार से 'मनमोहक परिंदे'

भारत में प्रवासी पक्षियों और उनके आवासों के संरक्षण के महत्व के बारे में जागरूकता पैदा करना, इस कैलेंडर का विषय चुना गया है।

विभिन्न देशों से प्रवासी पक्षियों की लगभग 370 प्रजातियाँ भारत आती हैं, जिनमें से लगभग 175 प्रजातियाँ लंबी दूरी से प्रवास करती हैं। वेटलैंड रिक्लेमेशन, वेटलैंड प्रदूषण, शिकार, फँसाने, उर्वरकों और कीटनाशकों के अंधाधुंध उपयोग, जलवायु परिवर्तन, आदि जैसे कारकों के कारण पिछले दशक के दौरान प्रवासी पक्षियों की संख्या में गिरावट आई है।

### 'Winged Beauties' from across the border

The theme 'winged beauties from across the border' has been chosen to create awareness of the importance of conservation of migratory birds and their habitats in India.

Around 370 species of migratory birds from various countries visit India, of which nearly 175 species undertake long distance migration. There has been a decline in the number of migratory birds during the last decade because of factors like wetland reclamation, wetland pollution, hunting, trapping, indiscriminate use of fertilizers and pesticides, climate change etc.

## Peregrine Falcon

This bird lives mostly along mountain ranges, river valleys, coastlines, and increasingly in cities. In mild-winter regions, it is usually a permanent resident, and some individuals, especially adult males, will remain on the breeding territory. When hunting, it can dive to a speed of more than 200 mph and it is the fastest bird on record.

## Eurasian Golden Oriole

This bird is striking in its typical oriole black and yellow plumage. They are remarkably difficult to spot in the dappled yellow and green leaves of the canopy. The male has the black eye-stripe extending behind the eye, a longer and paler red bill and more yellow in the plumage. Their call is a screech like a jay, but the song is a beautiful fluting weela-wee-ooo.
